

Reverse osmosis plants
Skid-mounted with all pre-treatment & post-treatment, and controls.

Akiki Engineering Est. (AEE) started in 1995 as experts and contractors in:

- Water and waste water treatment
- Steam production and distribution
- Desalination & Filtration Systems
- Hot Water & Steam Systems

Akiki Engineering can provide you with all types of water treatment equipment:

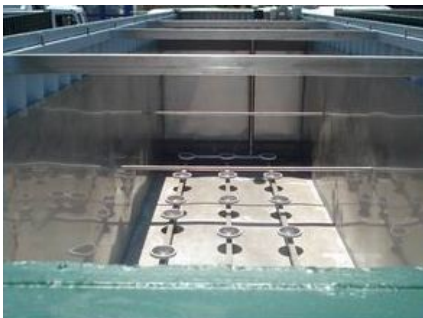

- Water softeners
- Water filters
- Carbon filters
- Reverse osmosis plants
- UV sterilizers
- Chemical dosing pumps

Control units like instrumentations: TDS, pH, Chlorine measuring units, panel and test kits.

Industrial water treatment plants:

- *Biological treatment for grease, oil and septic tanks*
- *Chemical treatment for cooling towers, closed chilled and hot circuits.*
- *Chemical supply for above treatment*

Waste treatment plants are available for sizes:

- *Rectangular shape 10 m³ to 500 m³/day*
- *Circular waste treatment plants 500 m³ to 20,000 m³/day.*

AEE.

Quality at your hands.
